

**Arab Barometer Wave III
(2012-2014)**

Technical Report

Algeria

Country	Algeria
Dates of Data Collection	13 March 2013 to 6 April 2013
Language of Data Collection	Arabic
Mode of Data Collection	Interviewer administered Paper and Pencil Interviews
Target Population	Citizens aged 18 and above
Excluded Populations	Institutionalized populations; Wilayas Adrar, Chlef, Bouirra, Bida, Tamanghasset, Illizi, Tindouf, Naama excluded
Sample Design	Multistage stratified sample
Stratification	Wilayas and settlement (urban/rural)
Number of Wilayas	40-8 (Wilayas Adrar, Chlef, Bouirra, Bida, Tamanghasset, Illizi, Tindouf, Naama excluded)
Number of Settlements	2 (Wilayas El Taref, Khenchela, Mila rural only; wilhayas Laghouat, Oum el-Bouaghi, Bejaia, Biskra, Blida, Tebessa, Algiers, Djelfa, Jijel, Saida, Skikda, Annaba, Guelma, Constantine, Médéa, Mostaganem, M'Sila, El Bayadh, Boumerdes, Tissemsilt, Souk Ahras, Mila, Aïn Defla, Aïn Tecmouchent, Relizaneurban only)
Total Number of Strata	52
Total number of interviews per Sampling point	10
PSU Selection	Probability proportional to size
Household Selection	Systematic skip interval of households with random starting point
Respondent Selection	Kish table
Sample Size	1220
Local Partner	Okba Com Institut

Egypt

Country	Egypt
Dates of Data Collection	31 March 2013 to 7 April 2013
Language of Data Collection	Arabic
Mode of Data Collection	Interviewer administered Paper and Pencil Interviews
Target Population	Citizens aged 18 and above
Excluded Populations	Institutionalized populations; Governorates Gharbia, Matruh, New Valley, North Sinai, Port Said, South Sinai
Sampling Frame	General population and housing census conducted by the Central Agency for Public Mobilization and Statistics in Cairo in 2006
Sample Design	Multistage Stratified sample
Stratification	Governorates and settlement (urban/rural)
Number of governorates	27 - 6 +1 (Governorates Gharbia, Matruh, New Valley, North Sinai, Port Said, South Sinai excluded, The West Bank (Luxur Valley) included)
Number of Settlements	2 (Cairo, Alexandria, Suez urban only; Luxor rural only)
Total Number of Strata	40
Total number of sampled PSUs	120
Total number of interviews per Sampling point	10
PSU Selection	Probability proportional to size
Household Selection	Systematic skip interval of households with random starting point
Respondent Selection	Kish table
Sample Size	1196
Local Partner	MADA Center for Media and Communication Strategies
Special Events	For security reason, most deserted governorates were excluded.

Iraq

Country	Iraq
Dates of Data Collection	6 June 2013 to 29 June 2013
Language of Data Collection	Arabic
Mode of Data Collection	Interviewer administered Paper and Pencil Interviews
Target Population	Citizens aged 18 and above
Excluded Populations	Institutionalized populations; internally displaced person
Sampling Frame	Central Bureau of Statistics in Iraq in 2010
Sample Design	Multistage stratified sample
Stratification	Governorate and settlement (urban/rural)
Number of governorates	9
Number of Settlements	2 (Governorate Sulaymaniyah urban only)
Total Number of Strata	17
Total number of sampled PSUs	81
Total number of interviews per Sampling point	15
PSU Selection	Probability proportional to size (urban areas) Simple random sampling (rural areas)
Household Selection	Systematic skip interval of households with random starting point
Respondent Selection	Last birthday
Sample Size	1,215
Margin of Error	3%-5%
Local Partner	Independent Institute for Administration and Civil Society Studies

Jordan

Country	Jordan
Dates of Data Collection	27 December 2012 to 6 January 2013
Language of Data Collection	Arabic
Mode of Data Collection	Interviewer administered Paper and Pencil Interviews
Target Population	Citizens aged 18 and above
Excluded Populations	Institutionalized populations
Sample Design	Multistage stratified sample
Stratification	Governorate and settlement (urban/rural)
Number of governorates	12
Number of Settlements	2
Total Number of Strata	24
Total number of interviews per Sampling point	10
PSU Selection	Probability proportional to size
Household Selection	Systematic skip interval of households with random starting point
Respondent Selection	Kish table
Sample Size	1795
Local Partner	Center for Strategic Studies and University of Jordan

Kuwait

Country	Kuwait
Dates of Data Collection	10 February 2014 to 14 March 2014
Language of Data Collection	Arabic
Mode of Data Collection	Interviewer administered Paper and Pencil Interviews
Target Population	Citizens aged 18 and above
Excluded Populations	Institutionalized populations
Sampling Frame	Public Housing and Population Census was implemented in 2011
Sample Design	Multistage stratified sample
Stratification	Governorate and settlement (urban/rural)
Number of governorates	6
Number of Settlements	2
Total Number of Strata	12
Total number of sampled PSUs	200
Total number of interviews per Sampling point	6
PSU Selection	Probability proportional to size
Household Selection	Systematic skip interval of households with random starting point
Respondent Selection	Kish table
Sample Size	1021
Margin of Error	3%-5%
Local Partner	Gulf Opinions (Samer)

Lebanon

Country	Lebanon
Dates of Data Collection	3 July 2013 to 26 July 2013
Language of Data Collection	Arabic
Mode of Data Collection	Interviewer administered Paper and Pencil Interviews
Target Population	Citizens aged 18 and above
Excluded Populations	Institutionalized populations; 1 governorate
Sampling Frame	General Housing and Population Census 2004
Sample Design	Multistage stratified sample
Stratification	Governorate and sect (Shia/Sunni/Druze/Christian)
Number of governorates	1-Jul
Number of Sects	4 (No Sunni population in El Nabatieh; no Shia population in North; no Christian population in El Nabatieh; no Druze population in Beirut, North, South, and El Nabatieh)
Total Number of Strata	17
Total number of sampled PSUs	120
Total number of interviews per Sampling point	10
PSU Selection	Probability proportional to size
Household Selection	Systematic skip interval of households with random starting point
Respondent Selection	Kish table
Sample Size	1200
Margin of Error	2.83-5%
Local Partner	Statistics Lebanon

Libya

Country	Libya
Dates of Data Collection	29 March 2014 to 18 April 2014
Language of Data Collection	Arabic
Mode of Data Collection	Interviewer administered Paper and Pencil Interviews
Target Population	Citizens aged 18 and above
Excluded Populations	Institutionalized populations
Sampling Frame	2006 census
Sample Design	Multistage stratified sample
Stratification	Governorate and settlement (urban/rural)
Number of governorates	22
Number of Settlements	2 (Governorates Tripoli, Sabha, Murzuk, Jufra, Kufra, Ghat urban only; Wadi al Shatii rural only)
Total Number of Strata	37
Total number of sampled PSUs	123
Total number of interviews per Sampling point	10
PSU Selection	Probability proportional to size
Household Selection	Systematic skip interval of households with random starting point
Respondent Selection	Kish table
Anticipated Contact Attempts	Three
Interviewers	Area supervisors attended 10% of interviews
Sample Size	1,247
Local Partner	Research & Consulting Center (RCC) at the University of Benghazi

Morocco

Country	Morocco
Dates of Data Collection	27 April 2013 to 17 June 2013; re-contact 3 March 2014 to 8 March 2014
Language of Data Collection	Arabic
Mode of Data Collection	Interviewer administered Paper and Pencil Interviews
Target Population	Citizens aged 18 and above
Excluded Populations	Institutionalized Populations
Sampling Frame	2004 census provided by the National Statistics Directorate of the High Commission for Planning
Sample Design	Multistage stratified sample
Stratification	Governorate and settlement (urban/rural)
Number of governorates	16
Number of Settlements	2 (Governorates Guélmim-Es Semara, Laayoune-Boujdour-Sak urban only; Oued Ed Dahab rural only)
Total Number of Strata	29 (3 governorates either rural or urban only)
Total number of sampled PSUs	120
Total number of interviews per Sampling point	10
PSU Selection	Probability proportional to size
Household Selection	Systematic skip interval of households with random starting point
Respondent Selection	Kish table
Sample Size	1116
Local Partner	Hassan II University

Palestine

Country	Palestine
Dates of Data Collection	20 December 2012 to 29 December 2012
Language of Data Collection	Arabic
Mode of Data Collection	Interviewer administered Paper and Pencil Interviews
Target Population	Adults aged 18 and above
Excluded Populations	Institutionalized populations
Sample Design	Multistage stratified sample
Stratification	Governorate and settlement (urban/rural/refugee camp)
Number of governorates	16
Number of Settlements	3 (No refugee camps in Salfit and Qalqilya; no rural area in Jabalia, and Deir al-Balah)
Total Number of Strata	44
Total number of interviews per Sampling point	10
PSU Selection	Probability proportional to size
Household Selection	Systematic skip interval of households with random starting point
Respondent Selection	Kish table
Interviewers	Interviewer matching, second interviewer typically present at survey interview
Sample Size	1200
Local Partner	Palestinian Center for Policy and Survey Research

Sudan

Country	Sudan
Dates of Data Collection	29 April 2013 to 29 May 2013
Language of Data Collection	Arabic
Mode of Data Collection	Interviewer administered Paper and Pencil Interviews
Target Population	Citizens aged 18 and above
Excluded Populations	Institutionalized populations
Sampling Frame	2008 Census
Sample Design	Multistage stratified sample
Stratification	State and settlement (urban/rural)
Number of State	15
Number of Settlements	2 (South Kordofan rural only)
Total Number of Strata	29
Total number of sampled PSUs	200
Total number of interviews per Sampling point	6
PSU Selection	Probability proportional to size
Household Selection	Systematic skip interval of households with random starting point
Respondent Selection	Kish table
Sample Size	1200
Local Partner	Sudan Polling Statistics Center

Tunisia

Country	Tunisia
Dates of Data Collection	3 February 2013 to 25 February 2013
Language of Data Collection	Arabic
Mode of Data Collection	Interviewer administered Paper and Pencil Interviews
Target Population	Citizens aged 18 and above
Excluded Populations	Institutionalized populations
Sampling Frame	Population and Housing Census 2004
Sample Design	Multistage stratified sample
Stratification	Governorate and settlement (urban/rural)
Number of governorates	24
Number of Settlements	2 (Governorates Tunis , Ariana, Monastir, Tozeur urban only)
Total Number of Strata	44
Total number of sampled PSUs	120
Total number of interviews per Sampling point	10
PSU Selection	Probability proportional to size
Household Selection	Systematic skip interval of households with random starting point
Respondent Selection	Kish table
Sample Size	1,199
Margin of Error	±3.1%
Local Partner	Sigma Conseil

Yemen

Country	Yemen
Dates of Data Collection	2 November 2013 to 4 December 2013
Language of Data Collection	Arabic
Mode of Data Collection	Interviewer administered Paper and Pencil Interviews
Target Population	Citizens aged 18 and above
Excluded Populations	Institutionalized populations
Sampling Frame	2004 Census by the Central Statistical Office
Sample Design	Multistage stratified sample
Stratification	Governorates and settlement (urban/rural)
Number of governorates	21
Number of Settlements	2 (Governorate Aden urban only)
Total Number of Strata	44
Total number of sampled PSUs	120
Total number of interviews per Sampling point	10
PSU Selection	Probability proportional to size
Household Selection	Systematic skip interval of households with random starting point
Respondent Selection	Kish table
Sample Size	1200
Local Partner	Yemeni Central Statistical Organization
