NOTES ON THE ARAB BAROMETER WAVE IX QUESTIONNAIRE

This document provides a courtesy English-language translation of the regional questionnaire used in Arab Barometer's ninth wave of surveys in the Middle East and North Africa. Fielded between August 2025 and May 2026, the wave includes surveys in nine countries: Egypt, Iraq, Jordan, Lebanon, Mauritania, Morocco, Palestine, Syria, and Tunisia. Users should refer to programming and interviewer notes listed throughout this questionnaire for country-specific instructions, including added or omitted questions and changes in question wording.

This questionnaire accompanies the Arab Barometer Wave IX datasets, which include value labels in their Stata and SPSS formats. For added convenience, Appendices 3, 4, and 5 of this document include country-specific lists of governorate names, media outlets, and political parties referenced in Q1, Q428A/Q429A, and Q503A_2, respectively. Additional information on country-specific methodology can be found in the Arab Barometer Wave IX Technical Report. Users also should note the following on the surveys fielded in Syria and Palestine:

Syria: Wave IX includes the first nationally representative survey Arab Barometer has conducted in Syria since the project began in 2006. Respondents were asked many of the same questions fielded in the other eight countries included in this wave, allowing Syria to be analyzed comparatively. Fielded during the political transition that followed the end of Bashar al-Assad's rule in December 2024, the Syria survey added numerous country-specific questions reflecting this consequential moment. The survey in Syria opened with a special section titled "Evaluating the Past," which appears as Appendix 1 in this document. Other Syria-specific questions appear throughout the questionnaire in the sections and in the order in which they were asked of Syrian respondents. All Syria-specific questions, including those in Appendix 1, begin with the prefix **QSYR.** Further methodological details on the Syria survey are available in both the Arab Barometer Wave IX Technical Report and the Syria-specific technical report.

Palestine: Arab Barometer's Wave IX survey was fielded in Palestine in October 2025. Given the timing of fieldwork and the ongoing war, most of the regional questionnaire was not applicable to respondents in Gaza. The survey in the West Bank followed the regional questionnaire, while the survey in Gaza was fielded as a separate instrument, which appears as Appendix 2 in this document. Only four sections of the regional questionnaire were fielded in both the West Bank and Gaza: Section I, "Core Demographics"; Section X, "International Relations"; Section XI, "War in Gaza"; and Section XII, "Demographics." Appendix 2 includes only the Gaza-specific survey sections. Throughout the questionnaire, the programming instruction **IF COUNTRY==15, SHOW ONLY IF Q1A_PAL==1** marks questions asked in the West Bank but not in Gaza. All Gaza-specific questions begin with the prefix **QPALGAZA.**

Arab Barometer Wave IX

My name is [INSERT FULL NAME] from [INSERT FIELD ORGANIZATION'S NAME]. We are conducting a survey on the opinions of citizens in [YOUR COUNTRY] on a variety of important social and economic issues. The survey is conducted on behalf of the Arab Barometer, a joint, academically driven initiative by universities across the Arab world and the United States. You have been randomly selected to participate, and your participation is of great importance for the success of this project.

The survey interview takes approximately 45 minutes. Your answers will be completely anonymous and will be kept absolutely confidential. The survey does not involve any risks to you personally or to [your country]. All information collected in this survey will be used for scientific research purposes.

Your participation is entirely voluntary. If at some point you are not comfortable with the interview, or with the way it's going, you can ask us to stop the interview. If there are any questions you are not comfortable with, you do not have to answer them.

Do you have any questions for us?

[**NOTE TO INTERVIEWER:** If yes, answer the questions. If not, continue.]

If any questions come up, please let us know during the interview or afterwards.

ABOUT ARAB BAROMETER

Arab Barometer is a nonpartisan research network that provides insight into the social, political, and economic attitudes and values of ordinary citizens across the Arab world.

Since 2006, we have been conducting rigorous, nationally representative public opinion surveys using probability samples of adult populations across 15 countries in the Arab world.

We are the longest-standing and the largest repository of publicly available data on the views of men and women in the MENA region. Our findings give a voice to the needs and concerns of Arab publics.
